

MOHIT KUMAR

B.Tech CSE Student | Developer | DSA Enthusiast

Kota, Rajasthan | 7765991106 | mandalmohit554@gmail.com

PROFILE

B.Tech Computer Science student focused on C++, Data Structures & Algorithms, and modern web development. Interested in building interactive, user-focused web experiences and strengthening problem-solving skills through hands-on projects.

TECHNICAL SKILLS

Programming	C++
DSA	Arrays, Searching, Sorting, Recursion fundamentals, Heap
Web	HTML, CSS, JavaScript
Tools	Git, GitHub, VS Code
Exploring	React, AI-powered applications

EDUCATION

B.Tech — Computer Science Engineering

Career Point University, Kota, Rajasthan

PROJECTS

Personal Developer Portfolio

Designed and developed a responsive, animated portfolio using HTML, CSS and JavaScript. Implemented smooth navigation, animated hero content, custom cursor effects, 3D project-card interaction, animated skill bars, responsive layouts, and GitHub Pages deployment.

Project Aurora — In Progress

Interactive learning platform concept focused on visual algorithm explanations, guided thinking, and animated learning experiences. Development planned with a strong emphasis on usability and visualization.

LEARNING & DSA

- Following a structured C++ DSA learning path with dry runs, complexity analysis and problem solving.
- Current learning includes arrays, searching, sorting and heap concepts.
- Building projects alongside DSA practice to strengthen practical development skills.
